PROFILE

As a passionate and innovative fourth-year Computer Science student, I am driven by a love for creativity, technology, and continuous learning. I thrive at the intersection of Human-Computer Interaction (HCI), UI/UX design, data analytics, and beyond, also gaining practical experience in web development, graphic design, and artificial intelligence. I am fascinated by how blending these diverse skills can create seamless, impactful, and meaningful digital experiences. I enjoy pushing creative boundaries, solving complex problems, and collaborating with others to bring fresh, user-centered solutions to life. By leveraging my multidisciplinary skill set, I aim to contribute to the tech industry by designing intuitive interfaces, developing efficient data-driven applications, and driving innovation that enhances user satisfaction and business outcomes. My goal is to create technologies that not only solve problems but also delight users and foster growth within organizations.

EDUCATION

BSc. Computer Science

Kwame Nkrumah University of Science and Technology (KNUST), Kumasi, Ghana

Expected September 2025

W.A.S.S.C.E

Jedidiah Schools

June 2019

Secondary School

Oregbeni Estate School

Till May 2018

WORK EXPERIENCE

Intern, LAPO MICROFINANCE BANK

November – December 2024

During my internship in the Finance and Accounts department of a microfinance bank, I gained practical insight into financial systems and data management. This experience deepened my interest in using computer science to develop efficient, tech-driven financial solutions.

UI/UX Designer – Waga

March 2024 (Part-time)

As a UI/UX Designer at Waga (an ALX project), I conducted user research, designed wireframes and prototypes using Figma, and collaborated with a team to create a user-friendly interface that addressed real user needs.

Tutor (Internship) – Torch Bearers Academy • Benin City

October 2022 – December 2022

During my internship as a tutor in a basic school, I handled classroom teaching, assisted with lesson planning, and supported the overall learning and development of the pupils.

ACHIEVEMENTS/AWARDS

Mastercard Foundation Scholarship
Program

December, 2021

Kwame Nkrumah University of Science
and Technology

Most Influential

August 1, 2025

Assemblies of God Campus Ministry.

PROJECTS/RESEARCH EXPERIENCE

Crispy Care Laundry Management Sysytem

Crispy Care Laundry System is a digital solution I developed to streamline laundry service operations. It manages customer orders, tracks laundry status, and organizes delivery schedules, helping improve efficiency and customer satisfaction through a user-friendly interface.

UI/UX and Graphic Design Experience

Designed user interfaces and graphic materials using Figma, focusing on usability, aesthetics, and clear communication.

AI Disinformation System (Truthscope)

TruthScope is an AI-powered platform that detects and analyzes disinformation and misleading content across text, images, audio, and video to help users verify information.

PROFESSIONAL TRAINING/ CERTIFICATION

AI Career Essential	Mar–Apr 2024	African Leadership Xperience (ALX)
Intensive Training Course in Catering	31 st August, 2023	Palate Royale Catering Services
Cybersecurity and Digital Forensics	September, 2023	The Centre for Capacity Building and Innovation (CCBI)
Programming in Python	June 2023	Coursera
The Highly Productive and Effective Administrator	Oct 2022	The Centre for Capacity Building and Innovation (CCBI)
5 Common Leadership Myths	Sept 2022	Baobab
Master Arduino without Coding	June 2022	Tutorials Point
Andriod Application Development	July 2022	Great Learning Academy
Python Essentials 1	Nov 2024	Cisco
Basic of UX Deliverables	March, 2025	Uniathena at Cambridge International Qualifications, UK
Transforming Leadership & Governance Seminar - Part I - IV	Aug 2022 - February 2025	International Leadership Foundation
Gender Smart Leadership for Female Professionals (Leading with Confidence Module)	September, 2023	International Leadership University
AI Starter Kit	May 22 nd , 2025	Kwame Nrumah University of Science and Technology - Knust E-Learning Centre
Artificial Intelligence Fundamentals	July 28 th , 2025	African Leadership Xperience (ALX)
Fibre Optics Splicing and OTDR Hands-On Training	February 1 st , 2025	IBM SkillsBuild
		Johvic Fibretech Solutions

LEADERSHIP EXPERIENCE

Campus Ministry - Financial Secretary (August 2023 - August 2025)

Currently as Financial Secretary for the Campus Ministry for two years now, managing budgets, keeping financial records, and supporting transparent financial planning for events and activities.
